

## Pratt Fine Arts Center Events

Pratt Fine Arts Center is a great place to take a break from the office! Our corporate events provide an opportunity for your group to work together, exercise creativity, and make something with your hands. These events can be tailored to meet your specific workplace needs from whimsical holiday parties to teambuilding workshops.

Our pre-designed corporate events are designed to accommodate as few as 4 to as many as 75 people, however we can custom design multi-studio events for groups as large as 125.

### All Events at Pratt include:

- 4 hours of studio time
- Fully-equipped art studios
- All required project materials
- Professional artist instructors

### Optional Add-Ons

- The option to bring in catering and refreshments
- Catering coordination and other custom food and beverage add-ons \*
- Additional space can be rented for meetings, receptions or celebrations\*
- Certain projects allow you to incorporate custom designs or logos\*

\* Additional fees may apply

Our professional artist instructors will expertly guide your group through the process of creating either a collaborative group project or individual works of art for each participant. Choose your preferred art-making experience from our selection of carefully curated options, or request a custom proposal.

Studio	Activity	Description	Min Capacity	Max Capacity
Glass	Glassblowing	<p>Experience the dramatic art of glassblowing in Pratt's fully-equipped hot shop! First, watch professional glassblowers demonstrate the tools and techniques. Then, with assistance, work in small teams to gather, blow, and/or shape molten glass into a variety of objects.</p> <p>This popular workshop provides a unique creative experience for private parties and corporate events alike!</p>	6	10
Glass	Glass Casting	<p>Fascinated by hot glass? Try casting it! Create a variety of solid glass forms by ladling molten glass into sand molds. Perfect for teambuilding exercises, you'll work as a group to create sand molds and pour the molten glass.</p>	4	10
Glass	Flat Glass Fusing	<p>Perfect for beginners and youth, fuse and melt colorful sheets of cut glass into gorgeous and functional tiles, plates and more! For an additional fee, fire the glass a second time in one of Pratt's many kilns to slump your fused tile into a shallow bowl or basin.</p>	4	10
Glass	Screenprinting on Glass	<p>Great for social groups and special occasions, combine screenprinting and glass fusing techniques to create unique glass tiles. Choose a design from Pratt's catalog of screens, or for an additional fee, we'll create custom screens using your own imagery. Then print your design and fire your tiles in one of Pratt's many kilns.</p>	4	10
Glass	Glass Beadmaking	<p>Work with a table-top mounted torch to melt and manipulate rods of colorful glass into intricate beads and/or ornaments. Perfect for social groups and special occasions, work together to create a stunning glass bead necklace, or exchange the hand-made ornaments or charms among your group members!</p>	6	10

2D Printmaking	Creative Collage	Make playful collages using paper, cloth, found objects and other materials. You'll also learn image transfer techniques designed to integrate your own drawings or other designs into the assembled works of art. Collaborate with your group or make an individual masterpiece!	6	15
2D Printmaking	Monotype Printmaking	Create uniquely textured prints using stencils, drawings, and elements from nature. Working in Pratt's fully-equipped print studio, you'll experiment with a variety of monotyping techniques to create colorful compositions on paper.	6	15
2D Printmaking	Letterpress	Create unique greeting cards, bookmarks, and other prints in our intimate letterpress studio – a perfect venue for small social groups! You'll learn to hand-set metal type as well as ink and operate a vintage letterpress.	4	8
2D Printmaking	Screenprinting	Employ creative screenprinting techniques on paper using a variety of pre-designed screens and colorful water-based inks. For an additional fee, we'll create custom screens using your own imagery, and/or provide t-shirts or tote bags to make your own custom-printed swag. Perfect for social groups and corporate events!	6	50
Metal Sculpture	Welding	Work together as a group to design and assemble either a stainless steel garden trellis, chair, or sculpture using the tools and techniques associated with the metal inert gas (MIG) welding process. An extraordinary and collaborative experience for corporate groups, consider incorporating a company logo or other custom design for an additional fee.	6	10
Metal Sculpture	Blacksmithing	Blacksmithing, also known as forging, is the process of shaping steel with heat and hand tools. Using basic tools and techniques that have been practiced by blacksmiths for centuries, you will hammer, twist and bend hot stainless steel into a variety of sculptural forms and functional objects.	6	12
Jewelry Metalsmithing	Metal Jewelry - Pendant or Earrings	Create a custom-designed pendant or earrings by working with a variety of tools and equipment to manipulate, texturize, and color a selection of nonferrous metals. <b>(Group decides which item to make, pendant or earrings, upon booking)</b>	6	12
Jewelry Metalsmithing	Spinner Rings	Spinning rings that can be stamped with customized phrases!	6	10

Jewelry Metalsmithing	Wood Jewelry	Beautiful, versatile and widely available, wood is an ideal and unconventional material for jewelry. Using a variety of hand tools, you will shape, carve and finish wood to create a unique pendant or pair of earrings.	6	12
Jewelry Metalsmithing	Forged Skewers	Working jewelry-scale, forge and manipulate hot stainless steel into decorative marshmallow or BBQ skewers. Perfect for beginners, you'll learn methods that metalsmiths have practiced for centuries. Toast your success at the end of your workshop with a marshmallow roasting at the forge!	4	8
Jewelry Metalsmithing	Metal Mosaic	Work as a team to design and produce a collaborative metal mosaic. Your group will cut, texture, and stamp a variety of nonferrous metal tiles and arrange them on a panel to produce a unique assembled image. Great collaborative project for private and corporate parties alike!	6	12
Jewelry/Metal smithing	Felting	Create colorful felt pins, rings, ropes and more while discovering basic felting techniques including fiber layout, wet felting and shaping, and hand-stitching beaded embellishments. Perfect for private parties or small social groups!	4	12
Wood	Wood Sampler	Enjoy a delightful sampling of woodworking techniques in Pratt's fully equipped wood shop. You will work with a wood lathe and other tools used to turn wood, learn the basics of wood carving with hand tools, and understand the simple yet remarkable methods of steam bending. Suitable for up to 15 people, your group will rotate through these three woodworking stations during this four-hour workshop.	6	15
Wood	Spoon Carving	Experience the joy of carving using hand tools. You will learn the basics of wood carving with hand tools and create your very own carved spoon in this four hour hand tools workshop.	4	10
